

Snow removal assistance for seniors

Angelle - 10/26/12

LAKE COUNTY - A check with most communities found Mentor-on-the-Lake to be the only one which offers a list of snow plowers and their quotes for plowing of driveways only, no shoveling, for senior citizens or those who are physically disabled.

Residents who call for service contract directly with the snow removal company, the city will not be involved.

The snowplow contractors listed will not come at a specific time, only when available when snowfall exceeds three inches, and not until after snow stops fall-

ing. For the list of contractors go online to www.citymol.org/ and click on the Senior/Disabled Snow Plow Program under Current News or call MOL City Hall at 257-7216.

However, the Lake County Council on Aging has a list of snow removal providers who have agreed to offer a senior discount and free estimates to Lake County's older adults. For additional information contact LCCoA at (440) 205-8111.

The names are listed only for information and does not mean they are en-

dorsed. The exclusion of any business should not be taken as a negative judgment. Rates or other information are subject to change at any time.

The following contractors

from the Council on Aging list offer senior discounts free estimates. Those licensed, bonded or insured are indicated by L, B or I. The service areas are indicated.
